RAIN

I am all over in rain

Can I board your names' train

Else life is going to remain a terrible pain

I don't want to be in bane

here is so madly insane

No longer am I ready to play this game

Please help me out

Kindly don't shout

About joy let it be all about

I am still there for you for sure

My love is ever pure

What do you want, what more?

Pls Kill Me

This world is crowded

Yet so small

There is nobody who can replace you

Nobody there can (ever be)

What should I do then

Who should I sue then

I hope all this is not true then

Else I am not willing to be

Please set me free

Let me go where I need to be

I really don't want to be here

How old you want me to be(become)

Pls pls pls kill me...

Lost Focus

Why have I lost my focus

Why have I lost track

Back onto my mission

Now I want to get back

You are my goal

THE ONE and ONLY desire

You are my requirement

To keep my soul wired

Life is so weird

Dunno how to express

What can be good about all this

You ended up screwing me pretty well

Won't loose I hope I

Won't fall on the floor

Kneel before you I must

Do when we are together, sure!

Kill me Or

You don't help me

When I need it the most

Wounds of the heart don't heal

Bliss of the soul they steal

Do you care to know how I feel

I beg you, have mercy

I bring to you a deal

Please kill me if you want me to heal

Please do something

Something I really need!

I am too shy

Yaar tujhe dekhta tha to hosh udh jaate the

Pass aata tha to dil thum jaata tha

Tu nazar aati thi to palkein band na hoti thi

Aur tu kehti hai ki I am too shy

Annie jab tu nazar aati thi to life ruk jaati thi

Jab tujhe chat hoti to sirf tu hi tu har taraf hoti

Tere bin to na kha sakta apni dal na roti

Aur tu kehti hai ki I am too shy

Yaar yeh dil sirf tere liye hi dhadhka tha

Sirf tere liye hi to 2 or 2, panch ho sakta tha(aur hai)

Teri ek muskaraahat ke liye mein kuch bhi kar sakta tha(aur hoon)

Aur tu kehti hai ki I am too shy

Yaar teri aavaz bahut musical hai

Teri aankhen bahut hi zyaada gehri

Bin tere mujhe sirf depression hai

Aur tu kehti hai ki I am too shy

Tere liye mar sakta hoon mein

Tujhe heaven pahuncha ne ke liye hell se ladh sakta hoon mein

Teri ek smile ke liye kuch bhi kar sakta hoon mein

Aur tu kehti hai ki I am too shy

Why???

Maded kar yaar meri, shyness hata dunga

Ek baar haan kar de, sab ko dikha dunga

I am hurting

Annie I am hurting

Please don't say that you don't care

Because believe me it is not fair

It is my life that I actually fear

Trust me, it hurts me really bad

And I am feeling down

It is very difficult to smile

No respite even once in a while

All the time I Remember you

And I miss you day in and day out

Do you really think that my love is still not genuine

On that claim I have my doubt

You know that this is not right

What I am going through is not even in your sight

With you I don't even want to fight

But believe me my situation is really tight :(

Fate

I can see you today

In my mind

God let out such accuracy

Perhaps, he has been very kind

Alas, in reality your face may never zoom

I may never be able to dance to your love's tune

But my love still is true

In hell at the moment is my rue(soul)

Will this journey ever end

Will I ever find my goal

Will our paths ever cross(and stay united)

Will the run ever be converted into a pleasant stroll

Till when should I wait

Is there really a genuine date

Where are we heading at this rate

What is next in my fate :(

Game

So much left to study

I hope not in vain

Really hard, I have kept trying

It seems so insane

Desperate I am

To love you and hug you, oh yes

Will my efforts ever be rewarded

Or will I forever be left

Crying in extruciating pain

Do I really have anything to gain

Or can only death wipe out

The tears of my rain

I really don't know what to do

In my enemy's arms I rest

Hoping for things to not turn out lame

Why can't you wish the same

With fear I head to play this game...

Fusion

Perfection dhoondne se bhi nahi milti

Par tum perfect thi

Not that I don't consider you perfect abhi

Kya baat thi tum mein

Main nahin janta

Why do I love you so much Annie

Nahin pata

Par I fell for you

Tumsa koi nahin dekha

Na pehle aur na ab

Aur poora yakin hai mujhe

Ki hoga bhi nahin

Kash tum hoti

Really mein hoti

Mere khyalon se bahar

Bahar bhi hoti

I am waiting for you

Please aa jao

Ab aur mat satao

Please maan bhi jao :)

Ek Nazar

Cold as a stone

Hard like a bone

Rough in your tone

Alas, I moan

A beautiful dream shown

But after that torn

Thrown out of your mind as old clothes worn

Why, have you gorn(gone)

Unlucky as hell, I am sad

Believe me, I am not that bad

Pain and suffering, I have had

Is this for you a crazy fad

Please come over here, my angel

Please come to me, I plead

Please change all this, that I live

Please come and set my soul free...

Bill

Cold as a stone

Hard like a bone

Rough in your tone

Alas, I moan

A beautiful dream shown

But after that torn

Thrown out of your mind as old clothes worn

Why, have you gorn(gone)

Unlucky as hell, I am sad

Believe me, I am not that bad

Pain and suffering, I have had

Is this for you a crazy fad

Please come over here, my angel

Please come to me, I plead

Please change all this, that I live

Please come and set my soul free...

Aap

Annie I miss you

Kahan ho aap

Kya kar rahin hain aap

Why I do feel like respecting you so much

Why does your thought give my heart such a deep touch

I fail to understand the reason of my suffering so much

Aap kya chahte ho

Mujhe aise kyun tadhpate ho

Itni door kyun rehte ho

Man ko aise kyun bhate ho

No matter what you do

No matter how you look

I don't know what to do

I still seem to love you

And this is very true...

All is gone

All is gone

Forever lost

It has become too late

There is little left to decide my miserable fate

I don't know yet

Will it still ever happen or not

And just in case it does, happen

My love may no longer have the same crust

I doubt if ever there will be genuine trust

In the shadow of death I am stuck

Do you still think that my pain is lust

I am sorry but you boarded the wrong truck

My love is forever

And the wait seems eternal

Thus the pain is killing me

And my depression is ruining my hopes free

How much can somebody stand

How much torture can somebody bear

How much pain can somebody endure

How long without his identity, can be live

Do you still don't

Still don't understand me

I always had you free

But your skin turned out to be thick like a tree

I kneel and I wait

Please help me and tell me the date...

All is gone

My love for you is true

Test me, I challenge you

Annie, I genuinely love you

Please tell me what should I do

I care for you dear

Even when you are not near

Falling from my eyes, tear after tear

Do I have any reason to cheer

When will you be free

When will you have the time to talk to me

When will we be on a loving spree

I want our relationship to be stable as a palm tree

I miss you honey

And no, this is not funny!!

For Help

Who do I turn for help
What should I do now, please tell
I am tired of this life, and well
The story isn't over just as yet

What really is my mistake
What was that unfortunate date
When you started to hate me, pray
I remember you to this day

My life is really sad now
Together we would have been happy, no matter how
But ofcourse you thought otherwise
And made my dreams bleed too

Why was I cursed so bad
Do you think of me as a retard
Why did you discriminate against me
But somehow I couldn't relate myself as me without you

I don't like it
I want myself to be set free
Please do something
Please help me!

Shy-Unfair-Punishment

Annie I really love you

Why, I am not too sure

But there is love in my heart, alright

That is something of which you probably don't even want more

Don't you feel any pain

For letting me suffer and cry

Don't you feel the warmth of my love

Are you waiting for me to die

How many times I have told you already

That I am very shy

I agree that I have been wrong

But forever will you punish me now

Isn't it unfair?

Way

People say don't die

I ask why

They say that you would rot in hell

Then where am I right now, please tell

Will there never be any respite to my pain

Will my sorrow never drain

Of late I seem so insane

My life has become so lame

Being strong is the solution they say

And burn in hell without a family, pray

Tell me, is this how you serve guests in a tray

I am worse than the food the goat eats, dry hay

Why have I been cursed so bad

What is the reason of letting me be so sad

Tell me the idea behind this crazy fad

It is getting late now, much more than just a tad

Life is a pain, torture and hell

I need some respite

I need to get well

Can you please, the way to me tell

I need to go home now

In the arms of my angel I need to fall

In the lake of love, I need to drown

In the ocean of justice I need to get rid of that frown

Show me the path

I beg you my God

Whoever you are

Just take to that

Forever grateful then I will be to you

Whatever you ask for, perhaps I will hand over to you

Are we progressing

Are we possessing the way

Are we going to get there

Please show me the way!

Short of Words

Having written so much

I am short of words

Don't know how to go on

But you are my only hope

Together we can furnish

A world of dreams

Much better for living

Then will be everyone's realms

But for that my angel

I surely need your help

He has to be fair to me

And you have to be there for me

I really need you my dear

I need you very near

And I need you asap

And I am laying no trap

Please listen to my pleas

Before times flees...

The Date

So much it pains

Forever it rains

All the time I only cry

My pain never drains

There is absolutely no respite

Not even a second to actually fight

No hope no tries

I don't know why

All I can do is nothing

But, sit and wait and wait patiently

Till time approaches that date

The date in my mind

The day that would change my fate

I hope it doesn't become too late..

So much

So much do I wish

That we could talk

So much do I want

To catch a good sight of you

So much do I need

To have you in my arms

So much do I plead

To start a new life together

So much do I seek

To always be with each other

So much do I beg

To for once be genuinely loved by you

So much do I hope

To serve you as a slave better

To much do I would crave

To embrace death in the comfort of your feet!

What have I become

I feel so ashamed of myself

What have I become

Where is that respect within me(not talking about you at the moment)

Which was once so profound

Where is that sense of responsibility within me

Which was once all around

What have you done to me

I hope that I don't lose me free

Is there going to be a heavenly tide

Or it is going to be yet another shocking ride

I hate myself now

I don't like to see within

Please come back to me my angel

Please discipline me and set me right(just like before)

The Message

What is this message

That I keep getting over and over again

Is it just an illusion

Or it is a message meant to be heard not in vain

Are the prophecies really going to come true

Was that something that really was more than I could have chew(en)

What is the reason of making it so late

What is the secret of that hidden date

Is there really going to be life on that side

Is happiness going to be forever wide

Will time bring in my only dreamt tide

Was it him who had really had to decide

Why this delay, so long, I ask

Why so much pain, and suffering, I mask

Won't so much torture kill our potential

Won't our relationship then sour in hell

I don't know the reason

I don't know the cause

I hope there is a purpose

I hope that things work out fast

Only then do I wish to last

All else is farcee!

What to do whence

What to do whence you are backstabbed
Again and again, by different but trusted people

What to do whence you have half lost the battle already
And the way seems too difficult to even fight
Not even a slight

What to do whence hope is so distant
And promises are broken to let the pain trickle

What to do whence even death seems to be a dream come true
But if no life awaits you, what to do

What to do whence there is only one reality, for you
And all day and night you dream only of her

What to do whence you don't get justice
And all divine forces turn their back on you
In fact, backstab the crap out of you

What to do whence hardly anybody seems to understand you
And they don't understand that you are good too

What to do whence your love turns out to be a psychopath
Who do you go to
To change her for you

What to do whence time walks by so slow

And suffering unfolds, every passing show

Waiting for death, I am

Don't know for how long, will my soul cram :(

Songs

Your Eyes!!

Your eyeszz

They look, very nicee

Oh my darling, sweetie pie

Oh yes, thatz right

Your eyeszz

They look, very nicee

Oh my darling, sweetie pie

Oh yes, thatz right

Deep they seem, to me, alright

I can drown in them

I can drown in them

You will see

It is just not enough

Whatever praises there can be

Your eyes twinkle and shine

They break freee!! They break me free...

Your eyeszz

They look, very nicee

Oh my darling, sweetie pie

Oh yes, thatz right

It is right, that

That, I do not even know

How beautiful they really are

And how should I even know

As vast as they sky

They must, they must be

In an ocean of love

I, will, drown in them to be

Your eyeszz

They look, very nicee

Oh my darling, sweetie pie

Oh yes, thatz right

This is the beauty of your eyes

They seem to be made perfectly right

And believe me, with them your really fine

I promise you your destiny, if you ever choose me!!

Serve Her

So much do I

Wish to serve her

So muchh do I..

Wish to be her slave

Oh So much do I

Wish to serve her

So muchhh do I...

Want to be her servant

Well, that is true

Somebody, please tell me

What do I do

I just don't know, I just don't

Please tell me, somebody

How do I serve her

Serving her is my passion

And thats my truth

I want to beg her

And love her

I care for her

I want to love her

My heart cries, oh God

Yes, my heart cries out

All over and all the time

Oh, I miss her
The sun never does shine

This is no world
That I want to live
Where is my mistress
Who I miss

I hate it
When I can't be for her
I would love it
Just to be part of her

I love her
I want to serve her
And there is nothing wrong in this
Somebody, please tell her
That she is who I always miss

So much do I
Wish to serve her
So muchh do I.
Wish to be her slave

Oh So much do I
Wish to serve her
So muchhh do I..
Want to be her servant

This is just not fair

No, its not right

I do have a right to live

Well, don't I

I want to kiss her feet

I want to cook her food

I want to be her pet

I want to be her puppy too

I want to serve her

Well, that is right

I really love her

And nothing in my life is right(Without her)

So much do I

Wish to serve her

So muchh do I..

Wish to be her slave

Oh So much do I

Wish to serve her

So muchhh do I..

Want to be her servant!! (And of course husband :()

Karta Rahunga Pyaar

Yaad teri jab aati hai

Aankhon se aasoon le jati hai

Dil ko bada tadpati hai

Marne ke liye behkati hai

Kya hai tere dil ka pata

Rab se main to ab ruth gaya

Tujh bin ek pal bhi ji na saka

Marta hoon tuhpar, lekin mar na saka

Yaad teri jab aati hai

Aankhon se aasoon le jati hai

Dil ko bada tadpati hai

Marne ke liye behkati hai

Bhagwan se vishwas samjho uth hi gaya

Jeene ka sahara samjho abhi tak na mila

Yaad ne teri pagal kiya

Kya batayun tujhe haal hai kya

Yaad teri jab aati hai

Aankhon se aasoon le jati hai

Dil ko bada tadpati hai

Marne ke liye behkati hai

Tu hi mera sab kuch hai yak

Karta rahunga tujhse hi pyaar

Tu hi mera sab kuch hai yaar

Karta rahunga tujhse hi pyaar

Jab se hai chaha

Dil ne tujhko, jab se hai chahaaa

Dil ne tujhko, tab se hai manga

Tu hi iski, hai tamana

Tu hi hai, iski aarzoo

Dil ne tujhko, jab se hai chahaaa

Dil ne tujhko, tab se hai manga

Tu hi iski, hai tamana

Tu hi hai, iski aarzoo

Haath tera ae dilbaar

Maine rab se hai manga

Thamna maine unko hai sada hi chaha

Lekin mere yaar, jo hai darr

Dil mein mere, bas jo gaya jo

Tere hi khatir janma tha woh

Dil ne tujhko, jab se hai chahaaa

Dil ne tujhko, tab se hai manga

Tu hi iski, hai tamana

Tu hi hai, iski aarzoo

Pyaas tu hi hai meri

Tere bin mein hoon adhoora

Oh aa ja yaar mere ab to

Aur kar de mujhko poora

Teri aankhein hai jheel se
Gahera inmein badi hai
Doobna jayun kahin main
Yakin man yaar hasrat kum nahin hain

Tere liye kya hoon mein janma
Marne se main nahi darunga
Bolde bas tu ek baar
Pyaar tujhse hi sada karunga

Dil ne tujhko, jab se hai chahaaa
Dil ne tujhko, tab se hai manga
Tu hi iski, hai tamana
Tu hi hai, iski aarzoo

Meri mohabbat hi, meri ibadat
Meri mehbooba hi, meri khuda hai
Bin tere jiya bhi to kya kiya
Tera naam na japa, to khuda bhi maaf nahi karega

Dil ne tujhko, jab se hai chahaaa
Dil ne tujhko, tab se hai manga
Tu hi iski, hai tamana
Tu hi hai, iski aarzoo

Dil ne tujhko, jab se hai chahaaa
Dil ne tujhko, tab se hai manga
Tu hi iski, hai tamana
Tu hi hai, iski aarzoo

Heart of Hearts

To god, this is an open challenge
Yes god, this is an open challenge for you
Dare to think beyond this
Dare to ever take it

I could have planned my life
Way better than you
And believe it or not
In your heart of hearts
You know that this is very true

Will I ever get my due?
Will you ever remove this curse, ever god?
In your heart of hearts
You know your wrong
In your heart of hearts
You know its all wrong

I could have planned my life
Much better than have and like you will plan the rest
I would have been much happier god
Had you used a bit of common sense
Had you been as gifted as me
Had you been the kind soul I am

You know that I don't deserve this
You know that this cant be true
You know that your wrong

You know that its time to be NOW

To god, this is an open challenge

Yes god, this is an open challenge for you

Dare to think beyond this

Dare to ever take it

Will I ever get my due?

Will you ever remove this curse, ever god?

In your heart of hearts

You know your wrong

In your heart of hearts

You know its all wrong

So much it hurts and so much it pains

All this I have borne

And there has never been anything to gain

I had shed tears for nothing

I am doing good for nothing

Or does it mean that god is good for nothing?

I can be soft on her

I can 'not punish' her like mad

But how will I be just and fair

If you I don't charge

You are the evil

You are grave

I only wanted to spread love

And now that would perhaps not be possible

Definitely not from my grave
Your the one who loses his best soul
Your the one who loses his world

I didn't want anything from this world
I don't want anything from anybody
If this is going to be the case
I will do whatever I can whilst I
And go home when its becoming late...

Cant

I cant live with-out you

All day I dream about you

When your not around

I only think about yea

I never spammed your life

In fact I always...wanted...

To make it come alive

I wish, you could be my wife

I truely love you, my dear

Please always stay near, to me

We can make a difference

To each others lives, thats true

I cant live with-out you

All day I dream about you

When your not around

I only think about yea

Let me try my best

Leave the rest, to me

I wont disappoint yea

Because...I cant live without you

Life is really crazy

I cant take it easy

Because...I still love you

And as I will always, do

I cant live with-out you

All day I dream about you

When your not around

I only think about yea!!!

Burn in Hell

Burn in Hell

The happiest times of my life are over

The happiest times have gone

No joy, no happiness, no fun is still to pass

The end has already begun

Only pain, only sorrow, forever I was hollow

Even that I no longer own

It is a sad demise I must say

But my death is still to come

All over all around forever I waited

No magic wand enchanted my rants

An ever swollen heartache, forever profound

Still kicks me real hard as I debate it

What did I do wrong?

What made my life apart?

I prayed for riches, I got it

But I lost my life, I lost my love

I lost the one for who I needed it

I hate my life

I forever loathe it

But why don't I know how to escape it?

I want to die. I want to dieÖ

Pain knows no mercy

And God is a myth

Time is an illusion

And those who show that they care don't give a fuck anyway

Oh when will it end

When will this journey be destroyed

When will justice be given

For I don't have much time for it, it should have begun

There is no joy in life

There is no reason to live

No life no death no one nobody

None of you deserve to be born

Why is this world so cruel?

Why is everybody a son of a bitch?

Oh what have I done?

Terror

On Call

They have a reason

They have a cause

Just wait for a moment

Please, for a second, pause

I tell this to you because

Because you are responsible for what was

Ever wondered how quickly hatred spreads

Ever wondered why love is more important than bread

You are the root of this terror

And I am your destiny

I am not here to punish you, just btw

I am here to mirror your image

Burning a person physically or emotionally

Nevertheless is burning

It pains just about equal

And what I fear more is my burning heart

You can scold a person today

Perhaps you want to even slap

But the damages you do will remain unseen

Until it is reflected on the world's screen

Everyone is valuable

And I love them all

Be fair and just to all our there

Else I am on call!

But....

Can you pay the price
Of the sins you slice(d)
I am really sorry, but
You haven't been too nice

Do you think you have
Really been all that wise
Have you enjoyed any prize
Or have you just rolled a pair of dice

Now hatred within my thumps
The pain and anger within punks
How do you expect me to show
Show the damage that you have sow(ed)

This game is not over yet
No, it definitely isn't
Sometimes I felt like making my
My numbness felt and wept

I often hated the smile on their faces
I loathed the joys they all bathed
I felt like making the difference felt
Melting the sun shine and hitting people with that belt

For now although
I think I am calm
I hate all this nevertheless

But what am I supposed to do :(

Black

Ashes

From the ashes I shall rise
Alone I will fight
It would be such a wonderful sight
No trace there will be of light
Blackness and darkness and voidness
That is my destiny
And I hate this alright
But die must you all
Because from the sky I was supposed to fall
You people don't care
Nope, not at all
Then who should I call
Who will bring in justice
Who will live to make this a storytale
I repeat yet again
Destruction must rain
Believe me, all you guys deserve is pain
My life is a bane
And I hope that it ends
Ends before my pain makes me make you insane
The ashes will then replace light
The ashes will crush you tight
My burnt self won't be affected of course
And ashes don't burn ashes
So I would have no remorse
Ashes my friends
Beware of the ashes!
